

# Anthropology: Improving Healthcare for ALL

*I use anthropology to better understand and address health disparities in local/national healthcare settings.*

## Project Spotlight: Cervical Cancer Screening

Conducted **clinic observations, interviews, document analysis** to provide insight as to why clinicians were not adhering to cervical cancer screening guidelines.

## Project Spotlight: Sex and Ethnic Disparities in HCC

Will be conducting medical journal **lit review** and **interviews** with patients in conjunction with sample collection to elucidate sex and ethnic disparities in HCC outcomes

Snapshot of skills I learned at **UNT** that I use at work:

## Project Spotlight: Structural Racism & Cancer Screening

Designing sub-study to explore SR at provider & clinic level that may contribute to poor screening outcomes. Will include **interviews/FGs, document analysis, and GIS** to accompany EMR data.
